MITRA FRANCE

“Cultural regeneration: heritage of future generations” is Erasmus+ strategic partnership project created by a group of partners from France, Italy, Estonia, Poland, Greece and Spain, all are involved in vocational education and training.

The objectives of the project are:

- *increasing vocational competencies of educators, students and learners;
- *awakening and reinforcing creativity and innovation;
- *supporting synergy and cross-sectoral cooperation;
- *offering tools, products and results for everyday work activities in VET;
- *developing international cooperation and dialogue.

The impact of the project will be visible on all involved. Staff members, VET students and learners will develop competences to work with cultural heritage. They will learn from best practices, from experts and from each other. Participants will have a chance to obtain new experiences and knowledge about European countries. Partners' organisations will improve capacity of teaching techniques and acquire a wider network in Europe.

The main intangible result of the project will be new competences of staff, students and learners. Project Toolkit will be main tangible result.

Partners will test Toolkit materials during local activities and disseminate project information and results for own staff members, students, learners and different stakeholders.

Partners will use the best methods of formal, non-formal and informal education during local and transnational project activities and share them with each other and with partners in own and other countries in Europe and in the world.
