The project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

“Digital Senior Citizen” (DSC) is Erasmus+ strategic partnership project (2018-2020) for partners from France, Estonia, Greece, Italy Poland and Spain. Coordinator of the project is Mitra France NGO.

The objectives are:

- * to extend competences of adult educators by preparing Open Educational Resource (OER) containing innovative, customized learning course "Digital Life",
- * to enhance the competences of adult educators by providing them with Digital Story Telling methodology in training of learners, especially seniors,
- * to develop OER that is tailored to the needs of adult educators and seniors to support the increase of digital skills of both groups,
- * to disseminate the results in order to reach as many adult educators and seniors throughout European Union as possible.

Target groups:

- * adult educators (including not professionals, working in non-formal education settings, adult education centres, schools for adults, 3rd age universities, social centres, associations, voluntary organisations, adult educators-freelancers);
- * learners from disadvantaged groups, especially seniors in age 65+.

The project directly involves over 1000 participants. Adult educators, senior citizens as well as stakeholders and external experts are involved in various project activities: testing, evaluation, providing feedback, participating in multiplier events.

There are five transnational meetings and one short-term joint staff event planned during two years of DSC project for staff members and educators, work on outputs, testing teaching and learning materials, local, dissemination and follow-up activities.

Intellectual Outputs

The project is centered on development of two main Intellectual Outputs:

*Course for adult educators and learners "Digital Life" as Open Educational Resource (OER) and

* Handbook for adult educators "How to deliver Digital Life training".

The modules of "Digital Life" course include the following:

Module 1 - "Internet basics - what actually is the Internet?"

Module 2 - "How to stay on-line and be safe - paying, shopping, banking without fear" - including negative cases recorded as Digital Story Telling.

Module 3 - "How to responsibly share information and still keep it private" - including positive cases recorded as DST.

Module 4 - "Assessing learners skills and competences".

Module 5 - "Creating awareness on validation of the acquired competences".
